

QHR : HRMS Application Features Manual

1. Attendance Punch In/Punch Out

Purpose: To record the start and end times of an employee's workday.

- **Punch In:**
 - Employees log in to the system.
 - Navigate to the Attendance section.
 - Click on the "Punch In" button.
 - The system records the date and time.
- **Punch Out:**
 - Navigate to the Attendance section.
 - Click on the "Punch Out" button.
 - The system records the date and time.

2. Attendance Tracking

Purpose: To monitor daily attendance records of employees.

- **Daily Attendance:**
 - Managers can view a list of employees with their punch in/out times.
 - Employees can view their own attendance records.
- **Monthly Attendance:**
 - Generate a report showing attendance for the month.
 - Filters available for viewing specific employees or teams.

3. Attendance Download

Purpose: To allow downloading of attendance data for record-keeping and analysis.

- **Download Report:**
 - Navigate to the Attendance Reports section.
 - Select the desired date range.
 - Click on the "Download" button to export data in CSV or Excel format.

4. Add Holiday List

Purpose: To maintain a list of holidays for accurate attendance tracking.

- **Add Holiday:**
 - Navigate to the Holidays section.
 - Click on the "Add Holiday" button.

- Fill in the holiday details (name, date, description).
- Click "Save" to add the holiday to the list.
- **View Holidays:**
 - Employees and managers can view the list of holidays.
 - Holidays are automatically accounted for in attendance reports.

5. Leave Request

Purpose: To manage employee leave requests.

- **Submit Leave Request:**
 - Employees navigate to the Leave Request section.
 - Click on "New Request".
 - Fill in the leave details (type, start date, end date, reason).
 - Click "Submit" to send the request to the manager.

6. Leave Tracking

Purpose: To track and manage leave taken by employees.

- **View Leave Status:**
 - Employees can view the status of their leave requests (approved, rejected, pending).
 - Managers can view and manage leave requests from employees.

7. Organization Sign-Up

Purpose: To allow organizations to sign up and create an account in the system.

- **Sign Up:**
 - Navigate to the Organization Sign-Up page.
 - Fill in the organization details (name, address, contact information).
 - Create an admin account.
 - Click "Register" to create the organization profile.

8. Add Manager Account

Purpose: To enable organizations to add manager accounts after signing up.

- **Add Manager:**
 - Admin logs into the system.
 - Navigate to the User Management section.
 - Click on "Add Manager".
 - Fill in the manager details (name, email, contact information, role).
 - Click "Submit" to create the manager account.

- Manager receives login credentials via email.

9. Manager and Employee Login

Purpose: To authenticate users based on their roles.

- **Login:**
 - Navigate to the Login page.
 - Enter username and password.
 - Click "Login" to access the system.

10. Forgot Password

Purpose: To allow users to reset their password if forgotten.

- **Password Reset:**
 - Click on the "Forgot Password" link on the login page.
 - Enter the registered email address.
 - Click "Submit" to receive a password reset link.
 - Follow the link to reset the password.

11. Manager Approved and Reject Attendance

Purpose: To allow managers to approve or reject attendance entries.

- **Approve/Reject Attendance:**
 - Managers navigate to the Attendance Approval section.
 - View pending attendance entries.
 - Select an entry and click "Approve" or "Reject".
 - Optionally add comments for the decision.
 - Click "Submit" to finalize the decision.

12. Employee Notes and Issues

Purpose: To allow employees to add notes and report issues.

- **Add Note/Issue:**
 - Employees navigate to the Notes and Issues section.
 - Click on "Add New Note/Issue".
 - Fill in the details (title, description).
 - Optionally attach relevant documents or screenshots.
 - Click "Submit" to save the note/issue.
- **View and Manage Notes/Issues:**
 - Employees can view their own notes/issues.
 - Managers can view and manage notes/issues reported by their team.
